## Ronnie Milsap, Country Superstar

Ronnie Milsap, an American country music singer and pianist, was one of country music's most popular and influential performers of the 1970s and 1980s.

Born on January 16, 1943, in Robbinsville, North Carolina, he has been blind since birth. He spent his early childhood in an impoverished farming community, but with financial support from his grandparents, he was able to attend the Morehead State School for the Blind in Raleigh, where he was taught classical music and learned to play the piano, violin and guitar.

He attended Young-Harris Junior College, and upon graduation he was offered a scholarship at Emory

University. He chose instead to pursue a professional career in music.

He has been of the most successful and versatile country "crossover" singers of his time, appealing to both country and pop music markets with hit songs that incorporated pop, R&B and rock and roll elements. He has received six Grammy Awards and forty No. 1 country hits, and over 35 million of his albums have been sold. He was chosen for induction into the Country Music Hall of Fame in 2014 and has also received the Academy of Country Music Career Achievement Award.

*FNI Staff: Cheri Burk, Maria Gonzalez, Panchanan Maiti, Gary Dunbar, Eva Zazo, Tami Bersano, Jordan Kippe and Mary Kunz*

## FNI's Mission

The mission of the Field Neurosciences Institute is the prevention, early diagnosis, care and cure of neurological diseases, disorders and injuries, and providing free baseline concussion assessments to local schools and sports organizations.

**Education:** Supporting programs that teach community and health provider education; offering free continuing medical education credits and lab experience for students.

**Support Groups:** Supporting local spinal cord injury and multiple sclerosis support groups and providing expert speakers and assistance to other support

groups, including those for Huntington's disease, Parkinson's disease and Alzheimer's disease.

**Injury Prevention:** Supporting education of area students on the importance of safe behaviors and providing custom-fitted bicycle and ski helmets.

**Clinical Care:** Supporting innovative procedures and instrumentation provided by our world-class neurosurgeons.

**Research:** Supporting clinical and pre-clinical neuroscience research for treating injury and diseases of the brain and spinal cord.

**Foundation:** Supporting all FNI programs including St. Mary's Neuroscience nurses, by providing support for the education leading to specialized certification, and providing supplies for free community stroke screenings.

*Panchanan Maiti and Gary Dunbar*
